Proudly announces a presentation

Dr. Dirk Reiners

The Center for Advanced Computer Studies
University of Louisiana at Lafayette

will give a presentation entitled

Research Assistantships - Where They Come From, How to Get One and How to Keep It

***

Abstract

Research assistantships are one of the best ways to finance your grad school time. They provide a good salary and the promise of getting paid for doing interesting research work. However, for many students it is not clear what research assistantships really are, what their purpose is, how to find and get one and, once you have one, how to keep it. The goal of this talk is to make you understand those topics and to better understand how to make the most out of a research assistantship.

To close out the talk, I will present an overview over some of the research in interactive 3D graphics and virtual reality done in the CREATE group.

DATE: FRIDAY, SEPTEMBER 3, 2010
TIME: 11:00 A.M. - 12:00 NOON
LOCATION: OLIVER, ROOM 112
