THE CENTER FOR ADVANCED COMPUTER STUDIES

Proudly announces a presentation

Mr. Jon Fitzgerald
Director
Forward Link Enterprise Division
Lafayette, Louisiana

will give a presentation entitled

Deploying Mobile Broadband

Abstract

In this talk, I will cover these four topics and their implications for development of high-tech work force.

1. State of Carrier wireless broadband deployments
2. DAS - Distributed Antenna Systems - a review of simulcasting over fiber networks
3. Femtocells and other micro-cellular approaches
4. RF testing for Capacity and Coverage optimization

DATE: FRIDAY, MARCH 26, 2010
TIME: 11:00 A.M. - 12:00 NOON
LOCATION: OLIVER HALL, ROOM 112

Biography

Jon Fitzgerald is the Director of the Forward Link Enterprise Division. Forward Link is a division of CBM of American which has 20+ years experience in the wireline Carrier services industry. CBM is a Verizon Turf Vendor and manufactures a variety of custom components for carriers that provide immense value inside the network core and have been implemented throughout the United States and the world. His wireless background began in the U.S. Army as a combat communications specialist. He has been the founder and/or manager of many companies in the Carrier Services Industry including those that built: tower sites, mobile applications, RF engineering and consultation. His years of experience, in providing differentiated services to wireless carriers, has prepared Jon for this very special time in the convergence of communications networks. Jon’s leadership philosophy is to create a work environment of mutual respect, trust, honesty, fun and hard work. He believes that all work well in a place where knowledge is shared, educated decisions are made, plans are executed and feedback loops improve the process.
