	Workshops				Tutorials			
	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6	Room 7	Room 8
8:00 am - 12:45 pm	Workshop: Mining Complex Data	Workshop: Data Mining Case Studies and ICDM Data Mining Practice Prizes (sponsored by Elder Research Inc.)	Workshop: Foundation of Semantic Oriented Data and Web Mining	Workshop: Temporal data mining: algorithms, theory and applications	Workshop: Optimization-based Data Mining Techniques with Applications	Workshop: Multiagent Data Warehousing and Multiagent Data Mining	Invited Tutorial: Models and Methods for Privacy-Preserving Data Mining and Data Publishing	Clustering with Constraints
12:45 pm - 1:15 pm	Transition break	Transition break			Transition break		Transition break	
1:15 pm - 6:00 pm	Workshop: Knowledge Acquisition from Distributed, Autonomous, Semantically Heterogeneous Data and Knowledge Sources	Workshop: Privacy and Security Aspects of Data Mining			Workshop: Computational Intelligence in Data Mining		Bioinformatics and bioimage analysis	Invited Tutorial: Mining and searching of graph-structured databases
7:00 pm - 10:00 pm	Room 9							
	Invited Tutorial: DMX, XML for Analysis and SQL Server Data Mining Platform, Zhaohui Tang, Microsoft Corp. Note: this tutorial is complimentary for all conference participants (without any charges).
